VOL. 6—NO. 10 WILMINGTON MASS., FRIDAY, MARCH 12, 1943 THREE CENTS

125 Voters At Town Meeting

Joseph Ring Dies in So. Pacific

The same day that another son left their home for service in the Navy, Mr. and Mrs. Joseph P. Ring of Middlesex avenue, on Tuesday received a telegram from the War Department informing them that their son Joseph, who had enlisted in the Army nine months ago, had died of tropical fever in the South Pacific battle zone where he had been stationed for the past two months.

Joseph was very popular in Wilmington and for three years served well on the School board. He enlisted in the service nine months ago and has been detached with the Marines ever since his induction. He has been stationed at Norfolk, Newport and most recently at New River, North Carolina.

Death came as the result of a Tropical disease. Joseph had been stationed in the South Pacific for only two months.

Leo P. Ring, his brother left Wilmington with the group who went from Draft Board No. 11, as an enlistee in the Navy the family do not know where he is at the moment. Another brother, Bernard F. is also in the Navy and is somewhere in the South Pacific. James M., a third brother is stationed with the Coast Guard in New York. Two other brothers also survive, Andrew P. and John Stewart as does his wife, Mrs. Joseph P. Ring of Methuen whom he married last June

Mr. and Mrs. Connor Married Sixty Years

Sixty years of married life was celebrated by Mr. and Mrs. James C. Connor of Middlesex Avenue on Sunday. Mr. Connor was married to Ida Whipple at the parsonage of the Good Shepherd Episcopal Church in Amherst, N. H., by Rev. Jacob LeRoy on March 7, 1883. They have resided in this town the past 45 years. Mr. Connor retired as an employee of the Boston and Maine railroad in 1938 after 43 years of service. He is a member of the Granite State Lodge No. 1 I. O. O. F., of Nashua, N. H., and the Knights of Pythias of Malden He was born in Woburn in 1861. Mrs. Connor was born in Malone, N .Y., in 1863, and is a member of the Episcopal Church of Woburn They had three children, Mrs Mabel L. Patterson of Woburn Carl F. Connor of this town and Mrs. Ruth Little, who is deceased. They have seven grandchildren P. H. O. S. C. Mate U. S. Navy, George Patterson, Jamaica, West Indies; Ruth C., Doris M. and William J. Patterson of Woburn; Mrs. Dorothy C. Annis and Miss Marjorie Connor of this town and Mrs. Gladys Solomonson of Lawrence. Mrs. Connor has one sister, Mrs Lizzie Buswell of Reads Ferry,

Subscribers

Subscription bills for 1943 are now in the Mail. For your convenience a return envelope is enclosed. Just place your remittance with the top of the bill and mail it in.

It is very important to the Mirror to receive these subscriptions as only paid subscribers may receive papers through the U. S. Government mail. The postal rules are very strict.

We have purchased an electric mailing machine which will be put into use the first week in April. This will speed up the delivery. Only paid subscribers names will be used in the machine. So kindly send your subscription in right away. We Thank You.

$35. Tax Rate Maybe

An interesting highlight was brought about following the town meeting when in a statement to the editor, Herbert C. Barrows, chairman if the Finance committee stated that it was his belief the tax rate for this year would be under $35. by the accepting of the Finance committee's recommendations at the meeting.

KNIFED

William Sheehan of Reading was arraigned in Woburn district court Wednesday on a charge of assault with a dangerous weapon, which allegedly resulted in the slashing of Bertram Duggan, 57, of West Street, Wilmington, with a bread knife Tuesday night in Duggan's home. Trial was set for March 17.

According to Police Chief Harry J. Ainsworth of Wilmington, Sheehan visited Duggan at the latter's home. An argument began, in which the bread knife allegedly was wielded.

Dr. Gerald Fagan was called to the home where he gave emergency treatment to the victim and then took him to St. John's Hospital. Upon admittance, Duggan was observed to be suffering from shock. Chief Ainsworth and Sergt Talbot Sidelinker are investigating the case.

To Purchase Roman Site And Truck for Highway

About 125 registered voters were present in Grange Hal Monday night to attend the annual Town Meeting. Town Moderator Philip B. Buzzell presided with Town Clerk William S. Cavanaugh taking down the notes for the records. hTe finance committee's recommendations were accepted almost 100 per cent. The salary of the Treasurer was increased from $800 a year to $1000 a year and the Tax Collector's salary was raised $100 up to $1600. The town accountant was voted an increase of $200. making his salary $1000. It was also voted to purchase a 1941 Mack International Truck for the Highway department at a cost of $3500. It was also voted to purchase the Roman Property on Church street.

A report of the Welfare committee was read by Herbert C. Barrows. Louis McMahon reported on the progress of the Honor Roll committee and it was voted they should continue.

Selectman John Cook spoke on an appropriation of $1200 in the budget of the selectmen and Assessors to pay for the hire of a full time clerk, as Cook stated the Selectmen are the Board of Health, Soldiers Aid and Relief and several other departments and as the work was growing and would continue to grow out of World War 2 a full time clerk was needed. Barrows stated that it should provide for it in the Town Warrent instead of "cover up" which it didn't do. He also stated that if the Selectmen and Assessors were on the job they could do it themselves as in the past. Cook stated that just because the town had got along for the past 40 years that it was not right to believe they can continue to. The $1200 was not granted, but $200 as recommended by the Finance committee was voted upon and accepted.

On the question of Salary for the Town Treasurer, Paul D. Emmons spoke stating that whereas the Accountant's salary was increased $200 he believed the Treasurer, who is doing a splendid job and devoting a great deal of time should receive a $200 increase. In a rising vote 70 people stood thus increasing the Town Treasurer's salary to $1[illegible] a year.

Emmons also recommended that the Tax Collector should receive the $100. increase he asked for. He

"Little Stories for Bedtime" by Thornton W. Burgess

SHADOW THE WEASEL ENJOYS HIMSELF

When I start to do a thing I always see it through;
I find it really is the best and only way to do.

THAT'S a little rule that Shadow the Weasel made for himself a long time ago and which he tries to live up to. Of course sometimes things happen to prevent but usually he does whatever he sets out to do. It really is a very good rule if you add to it this:

I never try to do a thing I shouldn't if I could.
And always try to make that thing a thing that's really good.

But Shadow never has added that last part. In truth Shadow would just laugh at that if he should hear it. The fact is, Shadow the Weasel

This particular morning Shadow had been very much out of sorts.

has a bad heart. Yes, sir, Shadow has a bad heart, a black, black heart. It is such a black heart that sometimes it seems as if there was no good in it. None of his neighbors believe there is. They all hate him, even his own cousins, Billy Mink and Jimmy Skunk. And Shadow doesn't seem to care. It seems sometimes as if he actually enjoyed being hated. Certainly he enjoys seeing other little people afraid of him, as most of them are.

This particular morning Shadow had been feeling very much out of sorts. Yes, sir, Shadow had been feeling very much out of sorts. You see he had hunted most of the night without finding anything to eat, and so he was hungry, very hungry, indeed. He had been out on the Green Meadow hunting for Danny Meadow Mouse when he heard Chatterer the Red Squirrel scolding over in the Green Forest. Shadow lifted his head to listen. Then a cruel hungry look crept into his eyes and he showed his sharp little teeth in a cruel, hungry smile as he said: "That sounds to me like last night's dinner and this morning's breakfast both in one. I think Chatterer will make a better meal than even Danny Meadow Mouse." With that he licked his lips and started in the direction of Chatterer's voice, and he actually had started up the tree Chatterer was in before Chatterer saw him. It was then that Chatterer had started on his mad flight of fear through the treetops.

Now while Chatterer raced and jumped through the tree tops as fast as ever he could, and so tired himself out, Shadow the Weasel took his time in following. He ran swiftly, but not swiftly enough to tire himself. He didn't try to keep Chatterer in sight. You see, he trusted to his nose to tell him where Chatterer had gone, and his nose never deceived him. It told him just what branches Chatterer had run along and just where he had jumped to the next tree.

Now, Shadow is himself a nimble climber, and he had no trouble in going wherever Chatterer had gone until he reached the place where Chatterer had made the long jump and fallen. Shadow just glanced at it and turned around. He had no mind to risk any such fall as that. He knew that all he had to do was to run down the tree and up the next. When he reached the ground he started at a gallop across to the next tree, but from habit his nose was busy on the ground as he ran. Suddenly he stopped.

"Ha!" said he. "Seems to me I smell Chatterer down here! What does that mean?"

His nose led him straight to the tree and up. Shadow grinned. He knew perfectly what had happened "Chatterer must have that jump and had a bad fall. I guess it must have shaken him up a little and he won't be able to run so fast," thought he. Then he started on as lively as ever. He was enjoying himself. He didn't mind that run through the tree tops because he didn't have to hurry any faster than he pleased and because he was sure of a good dinner at the end.

The Useful Hatpin Is Also Ornamental

The trends in millinery indicate that hatpins will be necessary for safe anchorage. The new small hats, especially, that are worn almost invariably atop a high pompadour call for hatpins.

You will see in the new collections many pearl - finished plastic novelty pins. Very attractive are the large pear - shaped and ball types. Also very new are glass pins in all colors, with emphasis on pastels and yellow for the plastics.

There are also many novel pins with variously contrived lace, or straw, or perhaps leather covered, heads. Now that cotton weaves are entering into the millinery field some milliners are featuring gingham or pique or glazed chintz hats that flaunt clever pins that are headed with novelties fashioned of matching material.

Chic Suit Hat

The suit's the thing this spring, and of course it must be topped with a modish hat. Milliners are especially directing attention toward the "suit hat" theme. The demand for gray felts this spring is widespread. Women want them to wear with the new pinstripe flannel suits and coats that lead in the style parade this season. The gray felt hat here shown has an unusual brim arrangement. Long pheasant feathers serve as trim.

SNAPPY FACTS ABOUT RUBBER

Scientists have determined that rubber latex as it drips from the trees is about 60 per cent water, 28 per cent chemically pure rubber, the balance resins, minerals, proteins and sugars.

Clothing made water-proof by the use of rubber was being sold in England as early as 1791.

Seeds of the five and ten cents variety have a stronger inducement than ordinary currency in encouraging the Yanks Indians of Ecuador's Oriente jungle to hand rubber out from the waters of the Amazon. Next to beads, guns and machetes put the "go" in the Yambo.

The first rubber to be imported into the U. S. was in the form of water bottles. They came direct from the Amazon district.

A full grown Hevea rubber tree averages 30 to 40 feet in height and its average life is 40 years or more.

SPOOL LAMPS
THIN WOOD DISC OF TOP WITH CLEATS THE THICKNESS OF LID
FULL COTTON SKIRT AND SCALLOPED FELT FASTENED TO REMOVABLE TOP

NO SEWING machine should be idle today. No matter if yours is not the newest model, keep it in good repair and include it in your decorating scheme. This sketch shows how one was fitted into a living room to look very smart and to do extra duty as a table.

Plywood or composition board may be used for the removable top, (see sketch). The top cover is of blue felt with a scalloped band stitched around it. This is quick and easy to do as it is not necessary to finish raw edges of felt. The full skirt is made of the best part of old sheets dyed a soft ecru tone.. This is sewn to the seam allowance of the felt and all is tacked to the back of the removable top so that it may be removed easily. A pair of kitchen stools are painted cream color and topped with blue felt for lamp stands. Scalloped felt also trims the lamp shades and the cover of an old side chair to match the table.

Feindel Charges Town Tractor Being Operated By Man Without License

During the Town Meeting Monday night it was brought to light by William H Feindel of Wilmington that the tractor which is also used to plow the town streets and that the town gasoline engine roller was allegedly being operated by George R. Garrow of Parker St. Wilmington who does not hold an operators license.

Mr. Feindel read a letter he had received from the Registry of Motor Vehicles in Lawrence in response to a tele.hone call he made to them. The letter stated that no operator's license had been issued toGeorge Garrow of Park St. Wilmington and was confirmed by a telegype message from the Registry in Boston.

Feindel stated that some one was to blame and action should be taken on this immediately as the town could get into serious trouble in case of an accident.

Selectman Frank W. Dayton called upon Mr. James White of the highway department to see whether this was true. White stated it was. Mr. Black stated that this was the first he knew of it as did Mr. Dayton and Mr. Cook and that if Mr. Feindel had any such information the Board of Selectmen meet every Monday night and that the information should have been given to them for their action. Feindel stated that on Sunday the streets were not plowed and that if the town tractor was not used why with three pair of horses in town why weren't the streets plowed.

THANKS VOTERS

I wish at this time to thank the voters who turned out at the polls and showed their confidence in me by again electing me to serve them on the Board of Selectmen. I also wish to thank those who assisted in transportation to the polls for their work and time.

VICTORY GARDENS ON HOME FRONT

Sufficient Vegetables for Entire Family Can Be Raised on Small, Fertile Sites

HOWEVER Hitler, Hirohito and Mussolini may be kept guessing about Allied offensives on the fighting fronts of the world, they can just as well be told right now that there is no secret about one of America's great drives on the home front. It's the Victory Garden campaign, already under way and expected to set national record for home food production.

When a national poll late last month reported that 54 per cent of the citizens interviewed were intending to grow gardens this year, newspaper readers of the country became aware of the propor-

Run Rows Long Way.

tions of this home-front offensive. By January, however, it was no news to the government's garden promoters that a 1943 bumper crop of home gardeners was in sight. They were already swamped with popular demands for how-to-go-about-it information and were meeting them—with news releases, radio programs, photographs and a special 1943 edition of a publication called "Victory Gardens."

The garden authorities had seen what happened in 1942 when an estimated 15,000,000 Victory Gardeners shouldered spades and hoes. Since then they had seen the national food situation change until by the beginning of 1943 the department of agriculture was saying: "The nation needs the help of everyone who can grow a good garden."

Will Educate Gardeners

The department of agriculture, it may be reported, was precise in making its appeal to everyone who can grow a good garden. Getting good gardens from inexperienced gardeners thus became one of the department's war concerns. Fortunately, its bureau of plant industry, in the agricultural research administration, has been dealing with this same problem in normal dimensions for many years, and was all set to meet the demands for information as they might arise.

It is impossible, of course, to avoid thinnings of some vegetables. Small seeds like those of carrots, collards, onion, parsnips, spinach, and turnips must be sown three or four times as thick as the plants will eventually grow, because many seeds fail to grow well. Surplus seedlings then have to be thinned out before the plants crowd each other.

When the inexperienced gardener begins to worry about not planting his seed too deep or too shallow, too early or too late, and realizes the many other details that have to be kept in mind, he will appreciate truly the helpfulness of such publications as the department of agriculture's "Victory Gardens" and the other free bulletins that can be obtained from the government and from state agricultural colleges and extension services. Most valuable of all to him will probably be the one published nearest to his home, for from it he can obtain most specific information on the times of planting and on the varieties of vegetables best adapted to his locality.

With such aids, 18,000,000 Americans and their helpers are this year expected to plant Victory Gardens—6,000,000 of them on farms, the rest in their backyards, on vacant lots, or in community Victory Gardens. With the seed sown and the tomato and cabbage plants set out, they will still have to face the Axis agents known to gardeners as weeds, insects, and diseases. But they will know at least that their own home-front offensive is under way and that the seeds of Victory are in the ground.

The gist of garden fundamentals has by now been reduced to terms so simple that they make gardening seem easier than it really is—so easy in fact that a great emphasis has been put on perseverance. No one reading how-to-do-it garden instructions, it is pointed out repeatedly, should set his foot to the spade unless he is determined to stay by his job without wasting seed, fertilizer, or effort. But, with such determination plus a willingness to learn the hard way, if necessary, the 1943 Victory Gardener can be confident of success, because he is going to get all the help that the federal government, state agricultural colleges, and many other public and private agencies can give him.

The first requirement that the new gardener will find in the specifications written by the experts is for a garden spot that is both sunny and fertile. And for his help in judging fertility he is given the rule-of-thumb: "If the weeds grow rank, the soil is fertile." Good soil, moisture and sunshine are three essentials. If they are missing, no gardener can expect to grow enough crops to justify his use of seed, fertilizer and effort.

Would-be gardeners are urged not to throw up their hands too soon if they can not find a good growing area on their own home lots. Many Americans in such circumstances are looking earnestly at the vacant lots in their neighborhood and still others are seeking what their chances may be to get an allotment in a community garden—or to get a community garden organized if there is none yet available.

The home gardener this year is advised to grow just as nearly all the fresh vegetables for his family as he possibly can. A garden 50 feet by 100 feet tended and kept growing all season is, for example, expected to produce enough vegetables to give each member of a family of five at least three servings a day, which comes about as close to providing the needed four to seven daily servings of fruits and vegetables as many gardeners can come. Smallest garden size for which a garden plan is suggested by the department of agriculture is 30 by 50 feet, but even smaller areas will grow a worthwhile crop of tomatoes and a few other crops, if greater space cannot be obtained.

Choose Vegetables You Like

With the area located, the Victory Gardener's next step is putting the garden on paper, an exercise not only interesting but also especially

Plants Should Be Spaced.

helpful for the inexperienced. Arranging the garden properly includes attention to a few general principles. Rows, for example, should not run up and down hill if the garden slopes very much, but if the area is level the rows should run the long way for convenience. First plantings are generally best placed along the south or east side of the garden, with later crops being sown progressively across the area, and whenever possible the tall growing plants should be on the west or north side of the garden so they will not shade other plants.

The main item in planning a garden is, of course, choosing what to plant. One thing is certain. There is little to be gained in growing vegetables that the family does not like, but within the family taste there are many garden products from which to choose. Green leafy vegetables—leaf lettuce, cabbage, spinach, chard, collards, kale, and turnip greens—should be well represented in every garden. Tomatoes and beans are also likely to be grown generally. All these are rich in vitamins. Potatoes and corn are among the best energy foods, but they require considerable space and are thus not recommended for very small gardens, which should specialize on the valuable vitamin, or protective, vegetables.

No-garden plan, of course, is suitable for all tastes or all localities, but an example of one balanced garden is provided by Dr. Victor H. Boswell in his "Victory Gardens." For the 30 by 50 "very small garden," Dr. Boswell suggests 13 vegetables planted in 14 rows. Those planted in spring include two 50-foot rows of pole snap beans, two rows of pole lima beans, two rows of tomatoes, half a row of lettuce, half a row of chard, and one row each of beets, carrots, turnips, cabbage, onions, radishes, and spinach. When these are harvested, the "succession" crops include two rows of collards as well as later plantings of the other vegetables.

Need Only Four Tools

Inevitably, gardening on paper leads to the real thing, and that means tools. Fortunately, however, at a time when metal is scarce, nothing elaborate is needed. There are many garden implements, but four of them will serve all purposes very well—a spade or spading fork, a steel rake, a common hoe, and a strong cord.

Spading can start as soon as the land is sufficiently dry in spring and the garden has been cleared of debris. Eight to ten inches is a good depth for spading if the top soil is deep. On thin layers of top soil experienced gardeners are careful not to turn up too much of the infertile subsoil. To increase the soil's fertility, the spader should mix in some well-rotted leafmold, manure, or other decayed organic matter if these fertilizers are available. Every 25 square feet of the garden can well take as much as a bushel. Commercial fertilizer will also be needed on most gardens, but its application can best be delayed until after the spaded clods have been broken up and the whole garden worked up with the rake and smoothed out for planting. Then the fertilizer is applied in bands along the planted rows.

Variety for Everybody.

This year Victory Gardeners will have a special fertilizer with 3 per cent nitrogen (about 85 per cent of it organic), together with 8 per cent of phosphoric acid and 7 per cent potash. Described as the best formula that can be made available to victory gardeners during the wartime emergency, when war calls for so much chemical nitrogen, this 3-8-7 mixture comes in packages of 5, 10, 25, 50, and 100 pounds net weight, labeled "Victory Gardener Fertilizer—for Food Production Only."

This fertilizer is best applied along the garden rows in a band about three or four inches wide, about two inches from the line where the seeds will be sown or the plants set. A wide furrow about two inches deep is scooped out with the hoe. The fertilizer is spread uniformly along this furrow, at the rate of 1 pound per 24 or 25 feet or row, mixed with the soil, and covered about two inches deep. It should not touch the seed. Broadcasting fertilizer is easier than applying it in bands, but unless the rows are very close the broadcasting brings less efficient results. If the Victory Garden fertilizer is broadcast, it should be used at the rate of three or four pounds per 100 square feet and then mixed thoroughly with the soil.

Don't Sow Too Thick

Common to all gardeners at planting time is the danger of sowing seed too thickly—a mistake that is wasteful not only of precious seed but also of time. For seed that is sown wastefully produces seedlings that must later be thinned at the expense of time and sometimes backaches.

Bean and pea seeds should be spaced as the plants are expected to stand, for these vegetables should never be thinned in the rows. Beet and chard "seeds" are really fruits containing several seeds and should thus be sown no thicker than the plants are to stand, although some thinning will be needed. Cabbage and tomato and onion plants and onion sets are also placed where they will remain.

Control 95% of Food

Ninety-five per cent of all food is now under some sort of government regulation.

Rationing also is being planned over meat, cheese, butter, fats and oils, it has been reported.

The War Production Board is supposed to be making plans to provide necessary materials for the big increase that is expected in canning because of vegetable rationing.

Marines Get Coffee And Sugar in Tropics

Uncle Sam's Leathernecks stationed in Puerto Rico do not worry about two of the most important staples rationed in the United States—sugar and coffee.

Although the coffee crop in Puerto Rico is not what it used to be, nobody, including United States marines, goes without coffee. It is still part of life on the island.

Because sugar is Puerto Rico's main crop, restaurants do not dole out a teaspoonful when you order coffee. Field after field of sugar cane assures residents and service personnel that there never will be a sugar shortage here.

But coffee and sugar are not the only plentiful items. A trip into the interior—which many marines do find time to make—reveals an abundance of fruits considered as luxuries in the United States.

Puerto Rico has a mild climate, cool in summer and warm in winter.

Cassowaries Largest of Borneo's Odd Birds

Largest of the many strange birds of Borneo are the cassowaries, relatives of the ostrich and emu. Characteristic features are possession of horny casques and neck wattles. Some six species of these flightless birds of the genus Casuarius occur in Australia, New Guinea and neighboring islands. They inhabit the forests and, while preferring a fruit, vegetable and rodent diet, have strong digestions, for, in common with the ostrich, they will eat almost anything.

All are about five feet high, with a black, horny-plated casque on the head, writes Edith M. Laing in Nature Magazine. Stout gray legs, capable of high speed, can deliver a bone-breaking kick and the long, horny, spiked claw of the inner toe can mortally lacerate an enemy. Would-be molesters had better beware, too, of the spine-like quills with which the rudimentary wings are equipped.

Crop Prospects Favorable

Prospects are favorable for another record-breaking year of food production, the department of agriculture has pointed out in a summary of agricultural developments. However, the demand for farm products is expected to increase more than production.

Moisture conditions were favorable at the beginning of 1943 and with only average weather from now until harvest, crop yields per acre are likely to be about equal to the general level in 1940 and 1941, and higher than in any earlier year.

Stocks of feed grains and of wheat and numbers of cattle on feed January 1 were at an all-time record. Numbers of sheep and lambs on feed for market were only slightly below the record set a year earlier.

Commercial hatchery production reached an all-time high in 1942 and recent output has been at record pace, reflecting a strong demand for chicks to meet the need for increased production. More than 90 per cent of the recent output has been in heavy breeds—many of them going to areas which specialize in producing young chickens for meat.

Goals for several important war crops have been increased since the beginning of the year. The new goals include grain sorghums, 152,400,000 bushels; flaxseed, 39,875,000 bushels; soybeans harvested, 216,000,000 bushels; dry beans, 25,542,000 bags, uncleaned; dry peas, 6,627,000 bags, uncleaned; potatoes, 407,700,000 bushels; sweet potatoes, 82,780,000 bushels.

Anti-Aircraft Gunners

Although anti-aircraft gunners earnestly attempt to shoot enemy planes out of the sky, the chief result of their fire is to keep such planes so high that they cannot drop bombs with any accuracy. For instance, during the great daylight raids over London, the anti-aircraft gunners accounted for only 5 per cent of the German machines lost, the other 95 per cent having been shot down by British fighter planes.

HOUSEHOLD MEMOS by Lynn Chambers

Menu Magic

New life for your meals—without meat. That's a problem which concerns us more day after day. A balanced diet dictates we must have a serving or more of meat or fish or beans or peas—one of those will fill our protein need—and give us energy, build and repair our tissues.

To homemakers who for years have used generous quantities of meat—this use of other protein food may be a new, but a delightful lesson in cookery.

Vegetable dinners please — and make attractive platters. Consider the excellent possibilities of strips of green beans, carrots, clusters of white cauliflower and diced beets in orange sauce—topped off in the center with a poached egg on toast.

Or, here is a loaf made of iron-supplying potatoes and protein-supplying peas fashioned in a loaf gaily garnished with egg dices amid broiled bacon:

***Pea and Potato Loaf.**
(Serves 6)

2 tablespoons vitaminized margarine
½ cup dry bread crumbs
1 cup fresh or canned peas, mashed
1 cup cooked potatoes, mashed
½ teaspoon salt
¼ teaspoon pepper
¼ teaspoon nutmeg
½ cup thick white sauce
2 hard-cooked eggs, sliced
Broiled bacon, if desired

Brown crumbs in vitaminized margarine and sprinkle ½ of them into a well greased loaf pan (8½ by 4½ by 2¾ inches) to form a lining. Mix together peas, potatoes, remaining crumbs and seasonings. Add white sauce (2 tablespoons vitaminized margarine, 2 tablespoons flour and ½ cup milk), and mix well. Alternate layers of peas and potato mixture and sliced eggs until all is used. Bake in a moderate oven (350 degrees) 25 minutes, or until set. Serve with Tomato Sauce made by the addition of 2 tablespoons of vitaminized margarine and a bay leaf to a can of undiluted tomato soup and cooked together several minutes. Garnish with eggs or broiled bacon, if desired.

Your family will exclaim prettypretty when you serve this au gratin dish—ringed attractively with carrot slices. The cheese-white sauce combination can make it a main dish:

Cabbage and Celery Au Gratin.
(Serves 6)

5 cups raw cabbage, shredded
3 tablespoons butter or other shortening
1 cup diced celery
3 tablespoons flour
½ teaspoon salt
¼ teaspoon pepper
2 tablespoons chopped pimiento
1 cup thin cream or top milk
1 cup cabbage cooking water
1 cup grated cheese
½ cup sliced carrots

Cook cabbage in small amount of boiling salted water for eight minutes. Drain and reserve 1 cup liquid. Melt butter in saucepan. Add diced celery and cook about 3 minutes. Remove from heat and blend in flour. Combine cabbage water and cream or top milk. Scald and add gradually to the mixture. Stir constantly and continue to cook until mixture is smooth and thickened. Add ½ cup of the grated cheese and cook until melted. Remove from heat. Place alternate layers of cabbage and sauce in a greased casserole. Top with carrots and sauce. Sprinkle with remaining grated cheese and dot with pimiento. Bake in a hot oven (400 degrees) for 25 minutes.

Another pork dish makes use of hearts, one of the unrestricted cuts of meat:

Baked Stuffed Pork Heart.
3 or 4 pork hearts
3 slices bacon
1 cup fine bread crumbs
1 small onion
Salt
Pepper
Flour for dredging
Lard for browning

Wash hearts and remove enough of center portion to permit addition of the dressing or stuffing. Dice bacon and fry until crisp. Combine with bread crumbs. Season with finely minced onion. Season cavity in hearts, fill with stuffing and fasten with skewers. Roll in flour and brown quickly in hot lard, in a heavy kettle. Add a small amount of water. Cover and cook slowly in a moderate oven (350 degrees) until the hearts are done —2 to 2½ hours. Thicken the liquid for gravy if desired.

Baked Spinach.
(Serves 6 to 8)

2 pounds spinach
6 tablespoons flour
5 tablespoons fat, melted
1 cup milk
½ teaspoon salt
¼ teaspoon pepper
4 tablespoons grated cheese
¾ cup bread crumbs

Wash and chop spinach. Arrange in layers in baking dish, sprinkling flour between layers. Mix fat, milk, salt and pepper and pour over spinach. Combine grated cheese and bread crumbs and place over top. Bake in moderate (350-degree) oven about 45 minutes.

Cake Making? Bread Making? Cookie Baking? Budget Fixing? Housekeeping? You name the problem and explain it. Miss Lynn Chambers will be glad to give you expert advice if you write to her, enclosing a self-addressed, stamped envelope for your reply, at Western Newspaper Union, 210 South Desplaines Street, Chicago, Ill.

Released by Western Newspaper Union.

Prune Carefully

In pruning large limbs from trees, always make an undercut on the limb first, before sawing or chopping it through from the top, in order to prevent a jagged break and stripping of the bark from the trunk.

This Week's Menu

Tomato Bouillon
*Pea and Potato Loaf
Baked Spinach
Hot Biscuits with Marmalade
Pear Salad
Baked Honey Custard
*Recipe Given

Lynn Says:

Meaty Facts: If beef supplies are low, learn to use pork, for it's one of the best sources of the B vitamins. It also contains high quality proteins and minerals and is 90 to 95 per cent digestible when cooked long, at low temperature.

The non-restricted meats, liver, heart, kidneys, oxtails, etc., are as nutritious as the restricted cuts. Learn to use them by themselves or by combining them with restricted cuts so you can s-t-r-e-t-c-h that meat budget.

Tougher cuts of meat will be on your menus often, because they take less points than the expensive cuts. Most of them can be cooked by braising—that is, browning in hot fat, then adding water or another liquid, and cooking at long, slow heat until the meat is tender.

Rubbing Noses

Rubbing, or pressing, noses is a widespread custom in the Pacific area as a sign of greeting or farewell. It is followed by natives of Burma and Indo-China and by many islanders.

That Nagging Backache
May Warn of Disordered Kidney Action
Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.
You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.
Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. *Ask your neighbor!*

In Service

On Tuesday a large group of boys from Wilmington and surrounding towns left for service duty. They were inducted on March 2. The local board in Billerica sends the list of the following boys who have left for duty in the Army, Navy and Marines.

ACCEPTED FOR THE ARMY

Irving Henry Rice, Wilmington; Edward Bernard Teague, Tewksbury; William James Mann, Wilmington; Alfred Eugene Lynch, Wilmington; Edward Michael Donahue, Tewksbury; Louis Salvatore Lipomi, Tewksbury; James Alfred Lawler, Tewksbury; Gordon Henry Mann, Wilmington; Gordon Frederick Lane, Wilmington; George Edward Gates, Wilmington; Andrew Arthur McCormack, Tewksbury; Roy Orman Tate, Wilmington; William Patrick Sheehan, Wilmington; Leo Joseph Zanotti, Wilmington; James Patrick Kane, Tewksbury; Sidney Richard Salter, Wilmington; Walter Francis Morris, Tewksbury; Kenneth Edward Harnden, Wilmington; Stephen John Pilcher, Wilmington.

ACCEPTED FOR THE NAVY

George Edward Reynolds, Wilmington; Albert Paul Gilliissen, Tewksbury; Kenneth Edward Harnden, Wilmington; Stephen John Pilcher, Wilmington.

TOWN REPORTS

Despite the snow on Saturday George S. Cushing with four Boy Scouts covered the town delivering the Town Reports which were late due to mechanical printing trouble and lack of compositors. Each and every home was covered. If in the event you were not at home to receive a book call at the Town Clerk's office. 1500 copies were published and delivered.

Assisting Mr. Cushing in the delivery were: Wilbur Sheldon, John Irwin, Raymond Woods and Edward Nichols.

Glad to see Chaplain Lt. Curry M Spidell in town over the week-end, visiting his sister, Mrs. Lauchlin Drew of West Street.

Circle 1 met Tuesday at the home of Mrs Charles Matthews on Columbia Road instead of the scheduled luncheon planned for Monday at the home of Mrs. F. J. Irwin.

Visitors in New York over the week-end include Mrs. Dorothy C. Annis of Middlesex Avenue who visited her husband, George S. Annis, stationed there.

Electric motors and fixtures were stolen in a house break on Hopkins Street and windows broken in a break on Middlesex Avenue. Police are investigating.

PENNY SALE IN TEWKSBURY

The women of St. Williams Parish in Tewksbury have chosen St. Patrick's Day for a penny sale for the benefit of the church. Honorary chairmen include Rev. Clement I. Flynn, pastor, and Rev. Joseph A. Curtin, assistant pastor. Wilmington folks are invited to attend.

Tin Can Roundup In Boston off

n The monthly collection of the cans scheduled for next week in Boston has been cancelled to permit city sanitary forces, who make the collections, to concentrate on street cleaning. Public Works Commissioner Hyland announced last night.

A collection covering a two-month period will be made in April. He urged every Boston householder to save all tin cans until that time and to make certain that not even a single can was thrown into the rubbish barrels.

Star Dust
STAGE, SCREEN, RADIO

By VIRGINIA VALE
Released by Western Newspaper Union.

MILITARY experts contend that "Singing soldiers are fighting soldiers"—so American army men on all fronts and in camps at home are to receive army hit-kits each month, with the lyrics of six top songs selected by the soldiers and a committee headed by Fred Waring. As chairman he conferred with Mark Warnow, director of NBC's "Your All Time Hit Parade," Lanny Ross, Jimmy Dorsey, Connie Boswell, Major Howard J. Bronson and Captain Harry Salter. Kate Smith and Guy Lombardo are also members of the committee.

Laraine Day, Cary Grant's leading lady in RKO's "Mr. Lucky," has her biggest opportunity in that picture, but she had to be killed off to get it. Remember her as Dr. Kil-

LARAINE DAY

dare's nurse in the Kildare series? She became so popular in that role that they did away with her in "Dr. Kildare's Wedding Day" so that she'd have a chance to go on to bigger and better things.

They tell us that Virginia Weidler had no warning that her sister Renee was going to turn up in the role of one of her school chums in "Best Foot Forward." Seems that Renee, two years older than Virginia, had been working as a gas station attendant, to release a man for war service, and intends to become a welder, but is taking a turn at the movies between times.

Henry Aldrich and his family have burst into print, by way of an excellent article in a national magazine. They're so real that it's a shock to go to the play. "The Patriots," and see House Jameson, Henry's radio father all these years, giving a superb performance as Alexander Hamilton. Incidentally, Madge Evans, silent screen star and wife of "The Patriots'" author, plays Thomas Jefferson's daughter.

A sudden switch in the shooting schedule of Columbia's "Attack by Night" meant that Brian Aherne had to be rushed from a golf course to the set. He was hurried through make-up and wardrobe and out to his place before the cameras, put on an operating table, and completely covered—except for his left knee, upon which a motion picture operation was performed!

Vera Vague, of the Bob Hope radio program, who's made several Republic pictures, has been signed by Columbia to appear in a special series of short comedies next season . . . Columbia's picked up its option on Ann Savage; after completing a three-weeks' tour of army camps and naval stations she was given the second feminine lead in "Right Guy" . . . Bill Tuttle, make-up expert, made Donna Reed up for her first screen test, which won her a long-term contract with Metro; their recent wedding was one result. "Mrs. Miniver" was acclaimed as the best picture of 1942 in the annual Mexican newspaper critics' poll taken recently.

A Sheet of Crochet That's Entirely New

NEW crochet edgings! Here are four — easy-to-do and pretty when finished. All are narrow and are suitable for edging pillow slips,

scarfs, luncheon cloths, etc. A lacy knit edge is the fifth given.

Filet crochet does the triangles which may be used either as luncheon cloth corners or combined as a square inset. Its motif is an eagle—proud, dauntless, symbolic.

* * *

Directions for the five edgings and the eagle triangle are Z979D, 15 cents. Send your order to:

AUNT MARTHA
Box 166-W Kansas City, Mo.
Enclose 15 cents for each pattern desired. Pattern No. .....

Help your Grocer

Let's Get Behind Him and Make Rationing a Success–Start Now to

use more of the plentiful NON-RATIONED FOODS

THE man who runs your grocery store has his headaches these days. For months, in the face of shortages and lack of experienced help, he's been trying to carry on . . . trying to give you the kind of service you've always expected of him.

Now he has a brand new problem—point rationing. He has to collect the stamps from you as well as the cash.

It's a burden for him—sure—and for you. But he knows and you know that it's got to be done. It's the only *fair* way of making sure that everybody gets a fair share. That's our way of doing things.

So it's his job—and your job—everybody's job—to make point rationing work . . . as smoothly, as efficiently as possible. Traffic jams in food stores aren't going to help anybody.

☆ ☆ ☆

Now there are a number of ways in which you can give this grocer of yours a real hand . . . in a good, neighborly American way. You can shop early in the day, early in the week. You can shop as *infrequently* as possible—once a week only, if you can manage. You can always make sure to have a shopping list, and to have your "point values" added up before you go to the store.

And you can help yourself as well as your grocer by using the *plentiful, non-rationed foods* as much as you can, instead of the scarce, rationed foods. Foods such as cereals, fresh fruits and vegetables, home-cooked soups, home-canned fruits and vegetables are not rationed and they deserve an important place in your wartime meals.

☆ ☆ ☆

Because *cereals* are one of these abundant unrationed foods, we here at the Kellogg factory in Battle Creek have been doing everything we possibly can to meet the unprecedented demand for our products. We're sending millions upon millions of packages of crisp Kellogg Cereals to the boys in our armed forces. We're packing K-ration for troops in the front line of fighting. Even our machine shop is making gun parts! And we're short of help, too. There are 423 stars on the big service flag hanging in the lobby of the Kellogg building.

* * * * * * * * * * *

Other ways to help your Grocer...

1. Shop early in the day.
2. Shop early in the week.
3. Shop only once or twice a week.
4. Prepare a shopping list.
5. Add up total "point" values before going to the store.

* * * * * * * * * * *

But in spite of these wartime difficulties, we've doubled our efforts to be sure that we can supply Kellogg Cereals to the millions of American families who are depending on *cereals* more than ever.

☆ ☆ ☆

Always famous for marvelous *flavor*, every Kellogg Cereal is made of WHOLE GRAIN or is restored to WHOLE GRAIN NUTRITIVE VALUES through the addition of thiamin (vitamin B_1), niacin and iron. With milk alone, or with milk and fruit, a bowl of crisp, delicious Kellogg Cereal gives you vitamins, minerals, protein, food-energy in one dish!

And remember this about cereals in your daily meals. They're quick and easy to prepare. No cooking, no pans or skillets to clean up. Even the dishes are easier to wash.

Cereals save time—work—fuel—other foods. Used in hamburger, meat-loaves, croquettes, etc., they help you stretch your meat . . . and they make *milk* go farther, too.

Think of *cereals* as one of your best, most nutritious, non-rationed foods and think of Kellogg Cereals as the finest you can buy.

FROM O.P.A. CONSUMER INSTRUCTION SHEET

"EAT MORE CEREALS—There is an abundance of cereals and, as you know, they are mighty economical. They are nourishing and delicious—what's more, cereals can be used to stretch your rations when mixed with vegetables and fruits."

PICTURE REVIEW

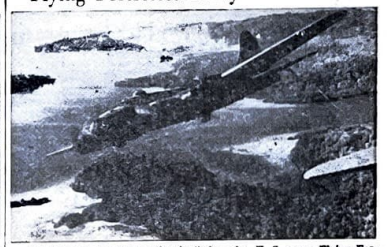
Jewish Children Pray for Kin in Nazi Lands

About 5,000 Jewish children from 518 religious schools in Greater New York gathered in solemn assembly of prayer and protest at Mecca temple for the children in Nazi-occupied countries. Ingeborg Jacob of Germany is shown here as she lights the memorial candle for those who died in the Nazi wave of terror.

U-Boat Skipper

This German U-boat captain poses for the camera man after his sub was beached at Oran, Algeria. British depth charges damaged the sub so badly that it was a case of surrender or sink.

Flying Fortresses Foray in Solomons

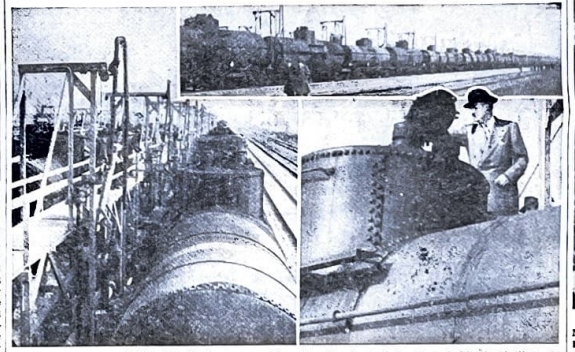


Leaving fire and destruction in their wake, U. S. army Flying Fortresses carry out a bombing sortie on Japanese installations on Gizo Island in the Solomons. The raid was part of a triple-pronged aerial thrust against the enemy during the fight for Guadalcanal. The starboard wing of the Flying Fortress from which a U. S. navy photographer snapped this picture is visible at the extreme right.

Governor of Algeria

When High Commissioner Henri Giraud announced the appointment of Marcel Peyrouton as governor general of Algeria it created quite a stir there, which later subsided when the appointment was sanctioned by the United Nations. Here we see the new Algerian governor general seated at his desk executing the duties of office. His aide, Joseph Fabregoule, director general of the civil cabinet, stands behind him.

'Black Gold' for Atlantic Seaboard Begins to Flow

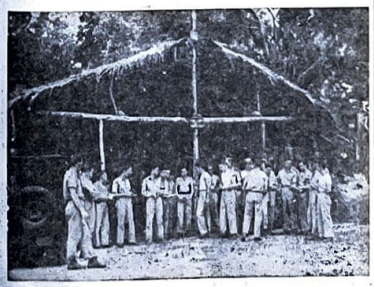


Tank cars at Norris City, Ill., the temporary mid-western terminus of the Texas-to-Illinois pipeline, are loaded (left) for the first shipment of oil to the Atlantic seaboard. Oil started flowing through the pipeline recently at the rate of 50,000 barrels daily. At right, W. Alton Jones, president of War Emergency Pipe Lines, Inc., turns valve to load the first tank car from the pipe line at Norris City. Inset: Train of tank cars to speed oil to Eastern seaboard to relieve fuel crisis.

Buna Battle Trophy

Sergt. James M. Cox of Jackson, Miss., holds a huge pair of binoculars captured from the Japs at Buna. All the equipment the Japs had at that New Guinea base was either destroyed or captured by U. S. troops when they wiped out the last Jap forces there.

Little Brown Church in Wildwood



This chapel of Our Lady of Loreto was erected by U. S. soldiers at an American base in the South Pacific. The chapel is used for Catholic [illegible] services, and is well attended.

Bring French Ships

Capt. C. Y. Perzo, skipper of the Fantasque, and Capt. D. M. Sala, skipper of the Terrible, French light cruisers, are shown in Boston after perilous trip from Dakar, French West Afr[illegible]

A Senegalese Father Goes to the Front

Except for the color of their skins and the manner in which the mother carries her child, this scene is a duplicate of what goes on at railroad stations all over America and Britain. It took place in Dakar, French West Africa, as a French colonial regiment entrained for the Tunisian front. The child seems big enough to [illegible] around on it

Boy Nearly Drowns

David Brazee, age ten, was snatched from drowning last Friday afternoon by the heroic work of 12 year old Karl Woodman, son of Mr. and Mrs. Harold Woodman of Glen road.

Following the purchase of a loaf of bread and a peck of potatoes young Brazee who is the son of Mr and Mrs. Lewis Brazee, started for his home on Parker street, South Tewksbury, and decided to cross Silver Lake, when out on the ice about ten feet, the ice gave way and young Brazee was thrown into the icy water, his screams were heard by Karl Woodman who was passing. Woodman rushed to the lake and crawled on his belly across the ice to the point where Brazee was when the ice gave way under him. Karl is an expert swimmer for a child of twelve and his knowledge of Life Saving work came in handy as he grabbed Brazee with his left hand and with his right arm treaded water to the edge of the lake.

After getting the scared child to shore, Karl walked all the way home with him, the clothes of the children freezing upon being cured that Brazee was safe at home, Karl headed for his own home a mile away and returned to his parents frozen. He was immediately put to bed and treated and the next was none the worse from the cold.

Mr and Mrs. Harold Woodman can well be proud of their young son, this paper along with the community, believes that this act should not go unrecognized. Medals have been awarded for deeds that didn't take the chance that this youngster did.

Raymond Ainsworth First Wilmington Boy Commissioned

A guest at the meeting last Thursday of the Auxillary Police meeting was Lt. Raymond L. Ainsworth, who has the honor of being the first Wilmington boy to be commissioned in this war.

Lt. Ainsworth, son of Chief and Mrs. Harry Ainsworth, spent a week in town with his wife, visiting his parents, and left Saturday morning for Fort McClellan in Alabama where he will be an instructor in Fire Arms.

Three years ago Raymond enlisted and his military career stretches from one camp to several all over this country. He was first stationed at Ft. McKinley in Maine for six months then sent to Ft. Slokum in New York, from there he was transferred to the Canal Zone for two years. A year ago in January he was commissioned a Second Lieutenant at Camp Lee in Virginia following his duties in the Officers Training School there.

After his commission he was sent to Arizona and back to training again in Virginia where he was made a First Lieutenant. He has recently finished a course in Ordnance at the Maryland Proving Grounds and has had a short furlough.

George Foley, son of Mr. and Mrs. George Foley of Middlesex Avenue, was tendered a farewell party Wednesday night at the home of his aunt and uncle, Mr. and Mrs. Walter Babine of Parker Road. George enlisted in the Navy and left yesterday.

Phyllis Cafe To Open St. Pat. Day

We have often read stories of men who were down and out. A case of a business down and put out on account of fire occured here in town On Wednesday, March 17 it will again be open to the public.

We mean "Phyllis Cafe Inc. owned and operated by Alesio Serentino, who is widely known for the manner in which he has done business at 456 Main street, for the past five years. Mr. Serentino has been working tooth and nail for weeks, renovating, decorating and rebuilding his restaurant. He deserves a great deal of credit and the respect of the community, as at the time of fire, there was no insurance, as he believed the restaurant was covered by a policy placed on by his deceased wife.

On Wednesday he will again join the merchants who make a living in Wilmington, by opening one of the nicest restaurants in the square in many years. New windows have been installed, a Colonial door, new ceiling with modern lighting, booths newly painted and decorated. His kitchen is spotless and from its interior delicious Italian Spaghetti for which "Phyllis" was famous, will again be served American as well as Italian dishes will feature his lunches and dinners.

Mr. Serentino in an advertisement in today's paper, announces that he will be pleased to greet his former customers and friends. This is a time to give the other fellow a hand, and we hope a fine reception will be in store for him as he most certainly deserves it.

Barrows Cites Brigham Report On Welfare

Herbert C. Barrows read the following report in regard to the Brigham survey of all town Depts Mainly on the Welfare department which was in a deplorable condition in 1940.

This matter was taken by the Finance Committee Primarily to provide a complete investigation of condition existing in the Welfare Dept. and Soldiers Relief, on the question of cost for this Survey we found that the Welfare investigation would be the chief cost and a survey of conditions in other departments would add very little to the expense, consequently we advised a survey of all Departments which was voted by the Town.

The Welfare Department was at this time in a most deplorable condition, records of case histories were not complete or missing altogether, reports to the state were not made as requested and much money was being lost to the Town of Wilmington by lack of proper notification to other Cities and Towns of aid rendered persons who had no settlement here, a proper checkup was not being made on cases through lack of visits at regular intervals.

Aid rendered in the form of grocery orders and fuel supplies was not done in an economical manner and was costing much more than was necessary. This Town has paid the past year over $12,000.00 in settlement of old bills due other Cities and Towns, quite a part of which could have had proper notifications and checkups been made, been avoided.

The present condition of the Welfare Department is very much improved. An office room has been provided and furnished for their use a paid Agent for the Board has been appointed and a trained Social Worker has been hired, these are full time workers, but the combined salaries do not equal that which was paid to the Board members in 1940 for travel and clerical expense for a very inferior administration.

All of these improvements were recommended in the Bringham Report, and there are others relating to the purchase of supplies which may be adopted later at the discretion of the Board of Welfare.

At the request of the Board of Selectmen and this Board an investigation was made by the Dept. of State Aid and Pensions of all Soldiers Relief cases and a complete report made to the Selectmen of each case with their findings and recommendations thereon which has resulted in a much improved condition in this Dept.

The Police Department has benefited by the suggestions made in the Survey, confusion of authority has been eliminated and general conditions have been improved.

Recommendations and findings as presented in our 1941 report will in most cases be helpful if adopted.

In conclusion it is our opinion that the improvement in general conditions in the Welfare Department alone are worth more to the Town than the total cost of the Survey as made and will result in sufficient savings in a very short time to offset the cost of the same.

Respectfully submitted
Herbert C. Barrows,
Chairman Finance Committee

Continued from Page One

cited other cities and towns stating that they pay their tax collectors 1 per cent of his collections, Emmons stated that George Buck is doing a good job and collects between $206,000 and $207,000 and that he wasn't asking for much of an increase. It was voted that Buck should receive $1600.

Barrows also stated that in the Public Welfare department the printer had again made an error printing the amount as $500, whereas it should be $2000. Two Thousand was voted upon and passed.

Under the Soldiers relief Selectman John Cook stated that the sum of $3000 should be broken down into two parts $2000 for the Soldiers Relief of World War 1 and $1000 for Soldiers Relief resulting out of World War 2 it was so voted and passed.

For the Cemetery it was voted to approve $2750, $200 to be raised from taxes and $750 to be transferred from the Cemetery Reserve Fund. Lluis McMahon spoke on this question.

On the Water Department it was voted to appropriate $7688.25 instead of $8000, due to a printed error. Also the Interest account due to a printed error was changed from $1700 to $2011.75.

Article 8 allowing the selectmen to advertise and sell at public auction property taken for taxes was approved. Mr. Barrows brought up the question of a Public Auctioneer stating that he had received many calls regarding this and wished a ruling from the Town Council as to whether the Selectmen could sell the property or should they hire a Licensed Auctioneer. Selectman Cook stated that last year they paid only $20 and sold property amounting to $1800 that owed the town only $600 in taxes.

Paul D. Emmons who has charge of these low value pieces of property stated that he could give the buyer more information than many people and that last year he charged the town only $20 due to the low bids offered and War conditions.

A year before he charged 5 per cent and sold property amounting to $3500. He thought the selection should be up to the Board of Selectmen themselves.

On Article 9 regarding the purchasing of trucks for the Highway department Mr. Dayton stated that a 1941 International Mack truck could be bought for $3500 and that he had sent Roger Buck, whose judgment he trusted upon, to see this truck. Buck's statement was "Grab it Quick." Percy Newhouse rose and stated that the Highway department should have two new trucks and that they could be purchased. He believed $7000 should be spent. It was voted to spend $3500 and buy the '41 truck.

Mr. Stephen Colucci spoke on Article 13 for a salary of $1500 for the Welfare Department clerk selected from its own members. Mr. Newhouse rose and stated it was his belief that the clerk should handle other duties besides welfare. Article 13 was voted and approved.

Selectman Charles H. Black spoke on Article 14 to appropriate $700 for the hire of a paid Observation Post watcher between the hours of midnight and eight in the morning. He stated that the committee and the Army thought this was very important.

J. Turner Hood Jr., in the absence of Paul Dayton, stated that they had tried every way they could think of to have the post manned between these hours and that where Wilmington was only 15 miles away from the coast line the Army strongly urges that a 24 hour watch pose.

On Article 15 the purchase of the Roman property. Mr. David Elfman asked if there would be any third party involved where a brokers commission on the sale would be paid or would the selectmen do the buying direct. Mr. Cook said he had looked up the assessment and the house and barn were valued at $10,000 and the 18 acres of land $3000. Mr. Barrows stated that the purchase would not affect this years taxes. It was voted to purchase the property by a standing vote of 101 people with none opposed.

Articles 17 to 23 were all accepted which includes the following streets Grant street from Federal st to land of the B & M railroad, 780 feet more or less Brand ave from Richmond to Baker, Wilson st from Federal to B & M. Pershing st from Federal to railroad, Liberty st from Federal to railroad and Mackey rd from Federal.
